REPLACEMENT FOR THE
CENTURY® COMFORT SELECT™ ~ FB

Evergreen IM is a high-efficiency ECM replacement motor that is designed to replace factory PSC blower motors in HVAC systems and the Century Comfort Select - FB. That means you can now offer your customers the comfort and efficiency of ECM in an easy-to-install replacement motor.

Built from the same trusted, field-proven ECM technology that is found in millions of OEM systems nationwide, Evergreen uses up to 25% fewer watts in operating mode and up to 75% fewer watts than a PSC motor in constant fan.

Evergreen motors are not approved to replace existing ECM Variable Speed or X13 motors, should not be used on twinned systems and should not be used on belt drive systems. There are two Evergreen Models. Please make sure to use the appropriate troubleshooting information. See the Evergreen IM Manual.

This motor is dual voltage 115/230VAC, reversible, multi-horsepower, and designed for all residential HVAC systems less than 5 ton of cooling and 150k BTUh of heating.

Rotation Sensing Technology™

SPECIFICATIONS

- Two Motors cover all applications
- Multi-volt 115/230 and reversible rotation
- Integrated with HVAC system controls/operation
- Four speed selections for heating and cooling
- Optimized constant fan speed
- Two year warranty
- Reduce truck stuck, no capacitors to change out or stock

BENEFITS

- Energy Savings
- Quiet Operation
- Comfort
- Indoor Air Quality
